

EMERGING ISSUES IN STATISTICS EDUCATION IN IASE

Gilberte Schuyten and M. Gabriella Ottaviani

Abstract. The International Association of Statistical Education (IASE) was founded in 1991. The work carried out by this association is described as well as its role in promoting both statistics education and research in statistics education. Issues in statistics education emerging during the Satellite Conferences and Round Tables of IASE will be discussed.

Keywords: statistics education, research in statistics education, IASE
